PARKETTMANUFAKTUR BY HARO · HANDCRAFTED

Parkettmanufaktur.

The handcrafted atelier of HARO — herringbone, panel parquet, XL boards, end-grain Carré and reclaimed oak, made to order in Germany.

2024-25 COLLECTION

THE MANUFAKTUR

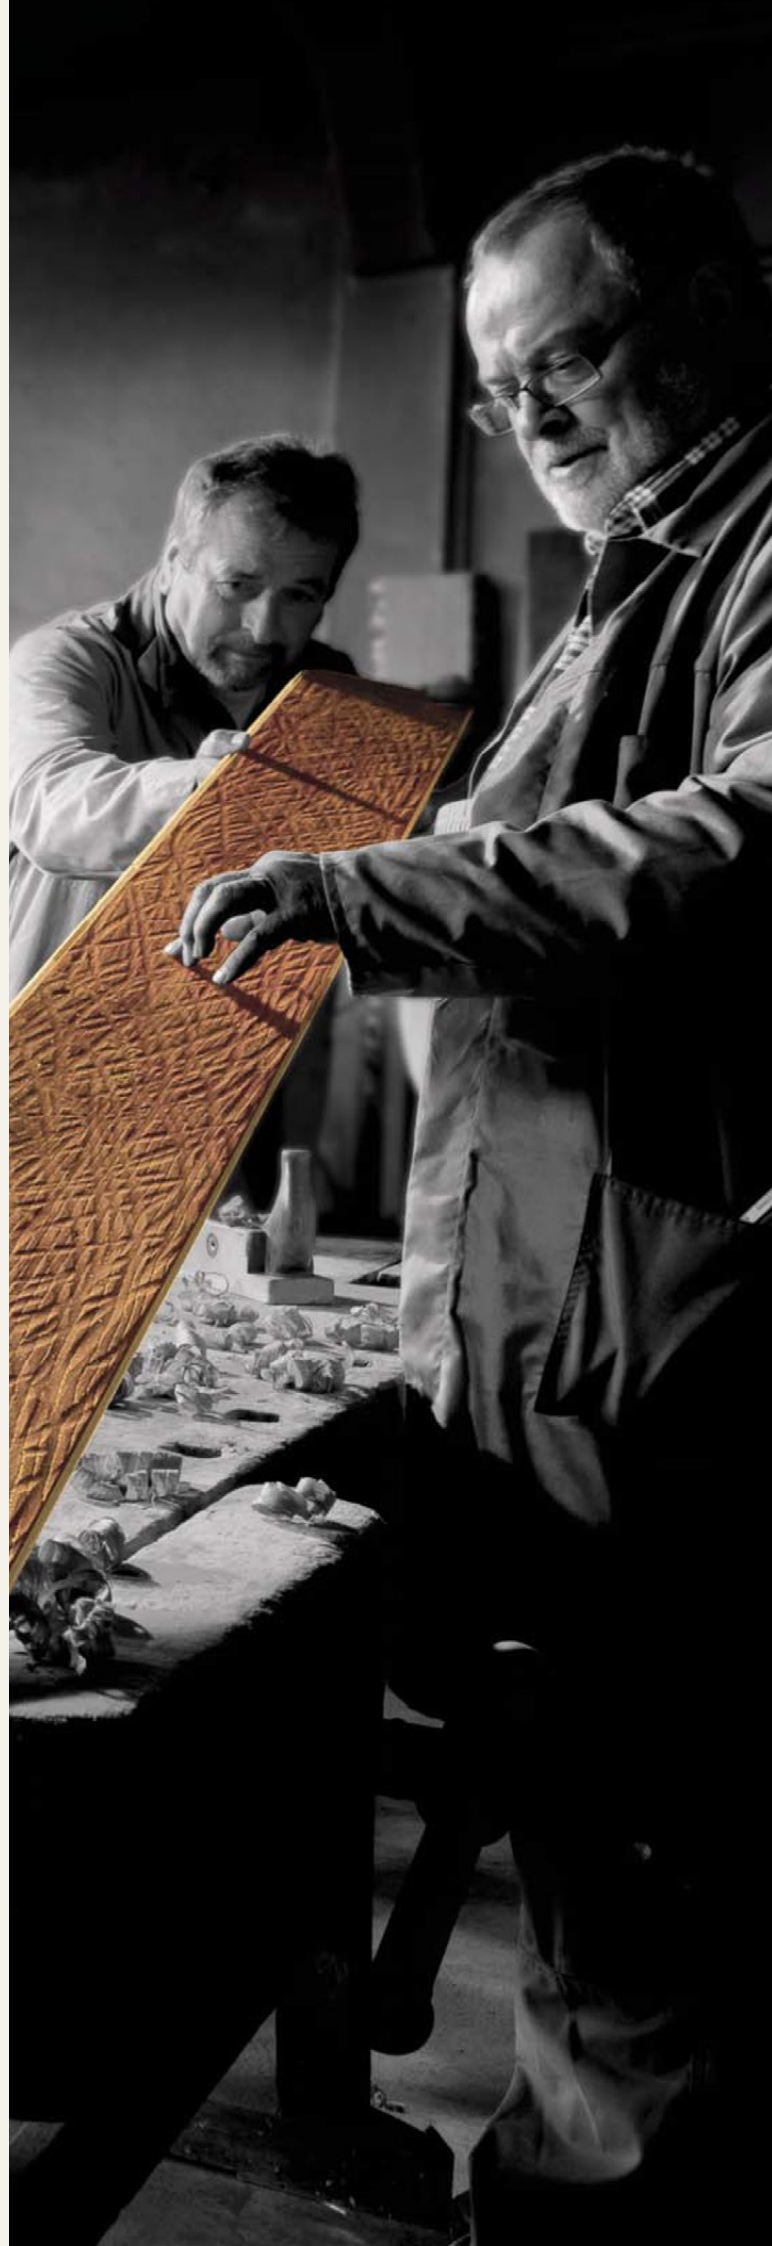

The luxury of patience.

Parkettmanufaktur by HARO is where industrial precision gives way to the craftsman's hand: floors scraped, brushed, smoked and coloured by people who have spent their lives with timber.

Each floor is made to order in Stephanskirchen, Bavaria. Herringbone and panel parquet for classical rooms; four-metre chateau boards for grand spaces; end-grain Carré and genuine reclaimed oak for floors that exist nowhere else.

Surfaces are finished in oleovera natural oil — a breathing, close-to-nature finish that deepens with age and is refreshed, never replaced, over decades.

For architects and owners who want a floor that is not a product, but a commission.

THE CRAFT

Made by hand. Made to order.

01 OLEOVERA NATURAL OIL

A natural oil finish that lets the timber breathe and develop patina — refreshed, not replaced, over decades.

02 HAND FINISHING

Scraping, brushing, smoking and colouring done by hand in the manufaktur — no two floors identical.

03 ENGINEERED STABILITY

2- and 3-layer construction beneath handcrafted surfaces — from 10 mm herringbone to 18 mm XL boards with a 5 mm wear layer.

04 BONDED INSTALLATION

Full-surface bonding for permanence and the best underfloor-heating performance (thermal resistance 0.14–0.15 m²K/W on panel formats).

05 EXCLUSIVE FORMATS

End-grain Carré and reclaimed Old Wood are made only by HARO.

06 30-YEAR WARRANTY

Every manufaktur floor carries HARO's 30-year residential warranty on layer structure and lamination.

Five expressions of the craft.

Herringbone

2-LAYER STRIP · 1000 × 120 MM · OLEOVERA

The classic herringbone, hand-finished in the manufaktur. At around 10 mm installation height it slips into renovations that solid parquet cannot.

Parquet Tile

PANEL PARQUET · 650 × 650 MM · OLEOVERA

Hand-laid panel parquet in Basket, St. Andrew, Loop and Central designs — an 11 mm plywood core beneath oak or walnut, backed in oak.

XL Boards

CHATEAU PLANK · UP TO 4030 × 305 MM · OLEOVERA

Extra-large chateau planks with a 5 mm oak wear layer — scraped, brushed or sawn by hand. Four metres of uninterrupted grain.

Carré Cross-Grain Wood

END-GRAIN PANEL · 2200 × 180 MM · EXCLUSIVE

End-grain oak — the hardest way to lay timber, and among the most beautiful. Blue-grey, silver-grey, smoked and antique brown. Only from HARO.

THE COLLECTION

The rarest of all.

Reclaimed Oak Old Wood

PLANK · 2200 × 173 MM · RECLAIMED OAK

Genuine reclaimed European oak, up to 300 years old. Cracks, nail marks and true patina — a floor that arrives with its history intact.

Made to order — colours, grades and formats are configured per commission. Confirm details and lead times with our Australian team.
