HARO FLOORING AUSTRALIA

IN PLACE

A floor proves itself in a home, not a showroom.

Swatches start the story; rooms finish it. The projects in these pages show HARO oak living with alpine light, coastal air, family kitchens and formal spaces.

They span new architectural builds, sensitive villa renovations and everything between — floors, stairs, walls and ceilings in one timber language.

Every project here can be matched to its exact products. Tell us which rooms speak to you and we'll send the article numbers, samples and pricing to match.
